Investment Banking Institute

Take your Career to the next level!

The Investment Banking Institute is an official supplier of financial education in Australia.

Our mission is simple:
Help you take control and manage your career aspirations.

Our Advanced Diploma of Financial Services (Financial Planning) is a nationally recognised qualification that leads on from our Diploma of Financial Services (Financial Planning) that is registered and in compliance with the Australian Securities and Investment Commission's (ASIC) Regulatory Guide 146 (RG146) training policy.

Our Advanced Diploma course surpasses the highest industry standards.

Our Advanced Diploma is a skills-based training program designed to engage and challenge you and deliver the necessary skills to apply the knowledge gained in a workplace environment.

The Advanced Diploma is designed specifically for individuals, including:

- New Entrants to the financial services industry – from school leavers through to individuals looking for a career change;
- People seeking to become a Para-planner and/or Financial Adviser; and
- People seeking a pathway to higher qualifications in order to fast-track their career.

Why choose the Investment Banking Institute of Australia?

The Investment Banking Institute is authentic to the financial education and training as well as being supported by our global alliance partners. Highly regarded by leading financial institutions, practitioners and academics due to our value adding support services. Our aim is to surpass your expectations in attaining the right qualification, in the right career at an equitable price. Whilst learning at a pace that suits your lifestyle demands.

Investment Banking Institute courses are the most up to date, innovative and comprehensive in the Australian market.

The IBI difference...

Flexible, Self-paced Learning

Our Advanced Diploma of Financial Services (Financial Planning) is comprised of four individual courses that can be undertaken via:

1. Distance Learning

This provides you with the flexibility to study where you want, when you want and at a pace that best suits your lifestyle. We have a dedicated Distance Education Team of experienced, industry professionals who provide individually tailored guidance and feedback to ensure each student gains the depth of knowledge and understanding to stay at the leading edge of their profession.

2. Facilitated Workshops (Classrooms)!

All IBI students are enrolled as distance students but have the option of attending classroom workshops. Workshops are facilitated by financial services professionals with years of industry experience. Each workshop is 2-days in duration which covers the key foundation stones of our Advanced Diploma. We conduct a full 8-day Advanced Diploma course (delivered in two blocks of 4 days, two weeks apart) each month in the major capital cities.

Workshops provide the perfect setting for students to gain valuable insight from experienced industry professionals whilst benefiting from the ability to hear the opinions and views of classmates from a variety of backgrounds which forms a critical component of the total learning experience.

Places are limited so it's important to book your place now!

3. Recognition of Prior Learning (RPL)

Recognition of Prior Learning allows students to gain exemptions from our Advanced Diploma for relevant courses or qualifications previously undertaken where the skills and knowledge learned can be verified and assessed. To see if you can benefit from RPL please contact our office and speak to one of our experienced RPL Assessors.

Experienced Industry Practitioners with 'Real World' experience

IBI Facilitators and Assessors have an enormous wealth of industry experience in financial services, education and training, and investment banking. Our staff are highly professional and willing to help above and beyond merely providing educational support – you can chat with them about careers in the industry, industry developments, further study opportunities, and your options once you have completed your studies.

Superior Study Support Services

Our Distance Learning students have immediate and unlimited access via telephone or email to our Distance Education Team from 8am to 6pm, every weekday. We recognise how important it is to provide timely feedback on assessments, enquiries, and distance learning queries.

Our Distance Education Team replies to all queries within 24 hours and provides feedback on assessments within 48 hours.

Advanced Diploma of Financial Services (Financial Planning) (FNS60404)

IBI is committed to providing quality support services for students including:

- Distance Education Team to assist with enquiries about course content, study choices, assessments and industry issues;
- Regular Student Newsletters;
- Subject Matter Experts to provide knowledge beyond the course content materials; and
- Online Learning Resources.

Practical, skills-based Learning and Assessment

IBI's philosophy of learning is one which values the ability by students to use the skills and knowledge gained and apply them in the workplace immediately. This contrasts to the traditional, old university-style 'theoretical' approach to learning which provides no basis for real-world application.

We do not believe in closed-book exams! These merely test a student's ability to retain facts over the short term.

Our approach is one of continual, ongoing assessment using a variety of methods that enables students to demonstrate the required competencies through a broad range of demonstrations such as:

1. Multiple Choice Questions (MCQs)
2. Problem Solving Scenarios (application of real-world financial planning procedures)
3. Case Studies
4. Role plays

Course Fees

Investment Banking Institute is the leading financial, business, corporate finance and investment banking advisory training provider in Australia. All course materials are written in plain English and contain practical real world applications so that your knowledge and skills are enhanced.

The IBI Difference

All IBI Courses have a practical and transactional focus rather than a theoretical academic orientation. These skills are underpinned with the foundation stones to allow students to practice in the industry. Realistic case studies and carefully selected reading materials have direct practical application to the real world requirements. The course text remains succinct so as to highlight the core foundations of the course and retain clarity of thought.

IBI also integrates course and assessment materials into other advisory areas such as corporate finance and investment banking.
